

## **Home Use Software**

The Home Use Program is a Software Assurance benefit available to Microsoft volume licensing customers with active Software Assurance coverage on their Office applications. Employees who use the covered licenses at work are eligible to purchase these Office applications for use on a personal device during the term of their employment.

Eligible employees are allowed to purchase a single license of each product available according to the terms of their organization's Software Assurance benefit.

**To access the Home Use web site:**

1. Go to <https://www.microsoft.com/hupus/en-US/home>
